Summary

Full-stack engineer who builds React interfaces, typed APIs and PostgreSQL-backed workflows, then stays close to production. Delivered client software with explicit identity and audit history, and led datacenter operations, escalations and SOC audits.

Skills

- React, Next.js, TypeScript and Node.js
- Typed APIs, PostgreSQL and relational modeling
- Authentication, tenant boundaries and audit history
- Docker, Kubernetes and CI/CD
- Production debugging and incident escalation

Professional Experience

Founder / Product Engineer / Systems Lead

Technomancy IT LLC

2015 - Present

- Build and operate client software and a Next.js, TypeScript and PostgreSQL platform spanning support tickets, scheduling and billing.
- Implement OAuth/OIDC and tenant-scoped access for shared services and operational workflows.

Senior Systems Engineer / Datacenter Architect

Front Range Internet Inc.

2015 - 2020

- Led NOC escalations, recovery verification and SOC 1/SOC 2 audits while operating datacenter and hosting infrastructure.
- Migrated workloads from Hyper-V and VMware ESXi into Docker and Kubernetes; maintained production web services and billing software.

Systems / Software Engineer

Office Evolution

2014 - 2015

- Built Node.js network provisioning automation and a front-desk application for Wi-Fi password resets and troubleshooting.

Network & Systems Engineer

PlumChoice / Everon

2012 - 2014

• Built diagnostic tooling and provided on-call support for SMB networks, endpoints and managed client systems.

Infrastructure and Systems Focal

IBM

2010 - 2012

• Wrote Perl, Bash, VBA and PHP automation for enterprise support and built an internal backup tool to reduce licensing costs.

Selected Projects

ProofMark | Document signing and verification

Completed client contribution

• Built React and Next.js signing workflows that make recipient routing, document verification and audit history explicit.

Technomancy IT | Client service platform

Technomancy IT LLC

• Built a Next.js and PostgreSQL platform that connects support tickets, scheduling and billing while separating client and internal access.

Velatis | Private research workspace

Completed client delivery

• Delivered a Next.js research product with contextual notes, optional AI assistance and deterministic chart services.

Education

Front Range Community College

Computer Science coursework

2011 - 2013

Certifications and Training

CompTIA A+ | CompTIA | Earned

CompTIA Network+ | CompTIA | Earned

Additional training: Anthropic, AWS, Udemy
